'57 Thunderbird

Our '57 gunmetal gray Thunderbird (only 5% was painted this color). Bought new by King Vidor of Beverly Hills, Ca. He helped direct "Gone With The Wind" movie. We had it restored to original condition and enjoy cruising every chance we get. It is not a trailer queen.

'59 Thunderbird Convertible

Bought from a St. Paul gentleman who thought this car was not fast enough for him. His plans was to buy a Corvette to satisfy his need for speed....we learned years later this same guy is now driving a black Retro, not a Corvette. How about that?

It took 45 years to get the car that I first saw in Nov '54. Found it in Wisconsin in '99. It has a 3 speed/OD, 2 tops, and is still 6 volt. I have restored it to like new condition.
